PROFESSIONAL SUMMARY

I am a Network Engineer and highly skilled Frontend Developer on Single Page Applications with React JS. I have knowledge and best practices of Hooks, Redux, Router, SASS, RESTful and GraphQL APIs. I'm a problem solver, strong team player, quick learner and adaptable person, who delivers reliable results with excellent project management skills.

PROFESSIONAL HISTORY

Senior Logistics Assistant

The Design Depot - The Big Group | Mar 2019 - April 2020

Planned the equipment required for clients and ensured a smooth-running warehouse. Managed major deliveries for events, and inducted new staff into their roles.

Operation Assistant

Beaumonde Catering | Mar 2016 - Feb 2019

Managed a team of 8-10 kitchen porters, orchestrated staff rosters, and trained junior staff.

Android mobile developer

Colombia Movil S.A | Jun 2015 - Feb 2016

Designed, developed, and tested a mobile application which tracks the progress of users' project management and goal fulfilment.
